If you own a timeshare, or are thinking of buying or selling a timeshare, you should visit TUG. TUG provides great advice on sensible timeshare buying and selling, and on effective timeshare exchanging. TUG is the Internet's best resource for providing Timesharers with such valuable information.

TUG is an Internet community of timeshare owners, just like you. TUG was formed to provide timeshare owners with unbiased information about timesharing. TUG is run by its members - it is not owned by any resorts, developers, or exchange companies – no developer hype and boiler-room presentations here! Collecting and combining information from its thousands of members, TUG provides timeshare reviews and ratings on more than 2000 timeshare resorts, and presents information on area activities, sites to see and places to eat for member use. TUG also has a wealth of helpful advice and information articles. The TUG bulletin boards will get you prompt responses on almost any timesharing-related question you might, and those responses come from other timesharers who have "been there, done that".

Some of the membership features available at TUG are:

- [Online Bulletin Board \(BBS\)](#) - All your timeshare questions asked and answered.
- [Timeshare Resort Reviews and Rankings](#) - Written reviews for over 1200 resorts, and numerical rankings for more than 2000 resorts, provided by members who have stayed at the resort. These are constantly updated to provide members with the latest information.
